

Lidemark kirke

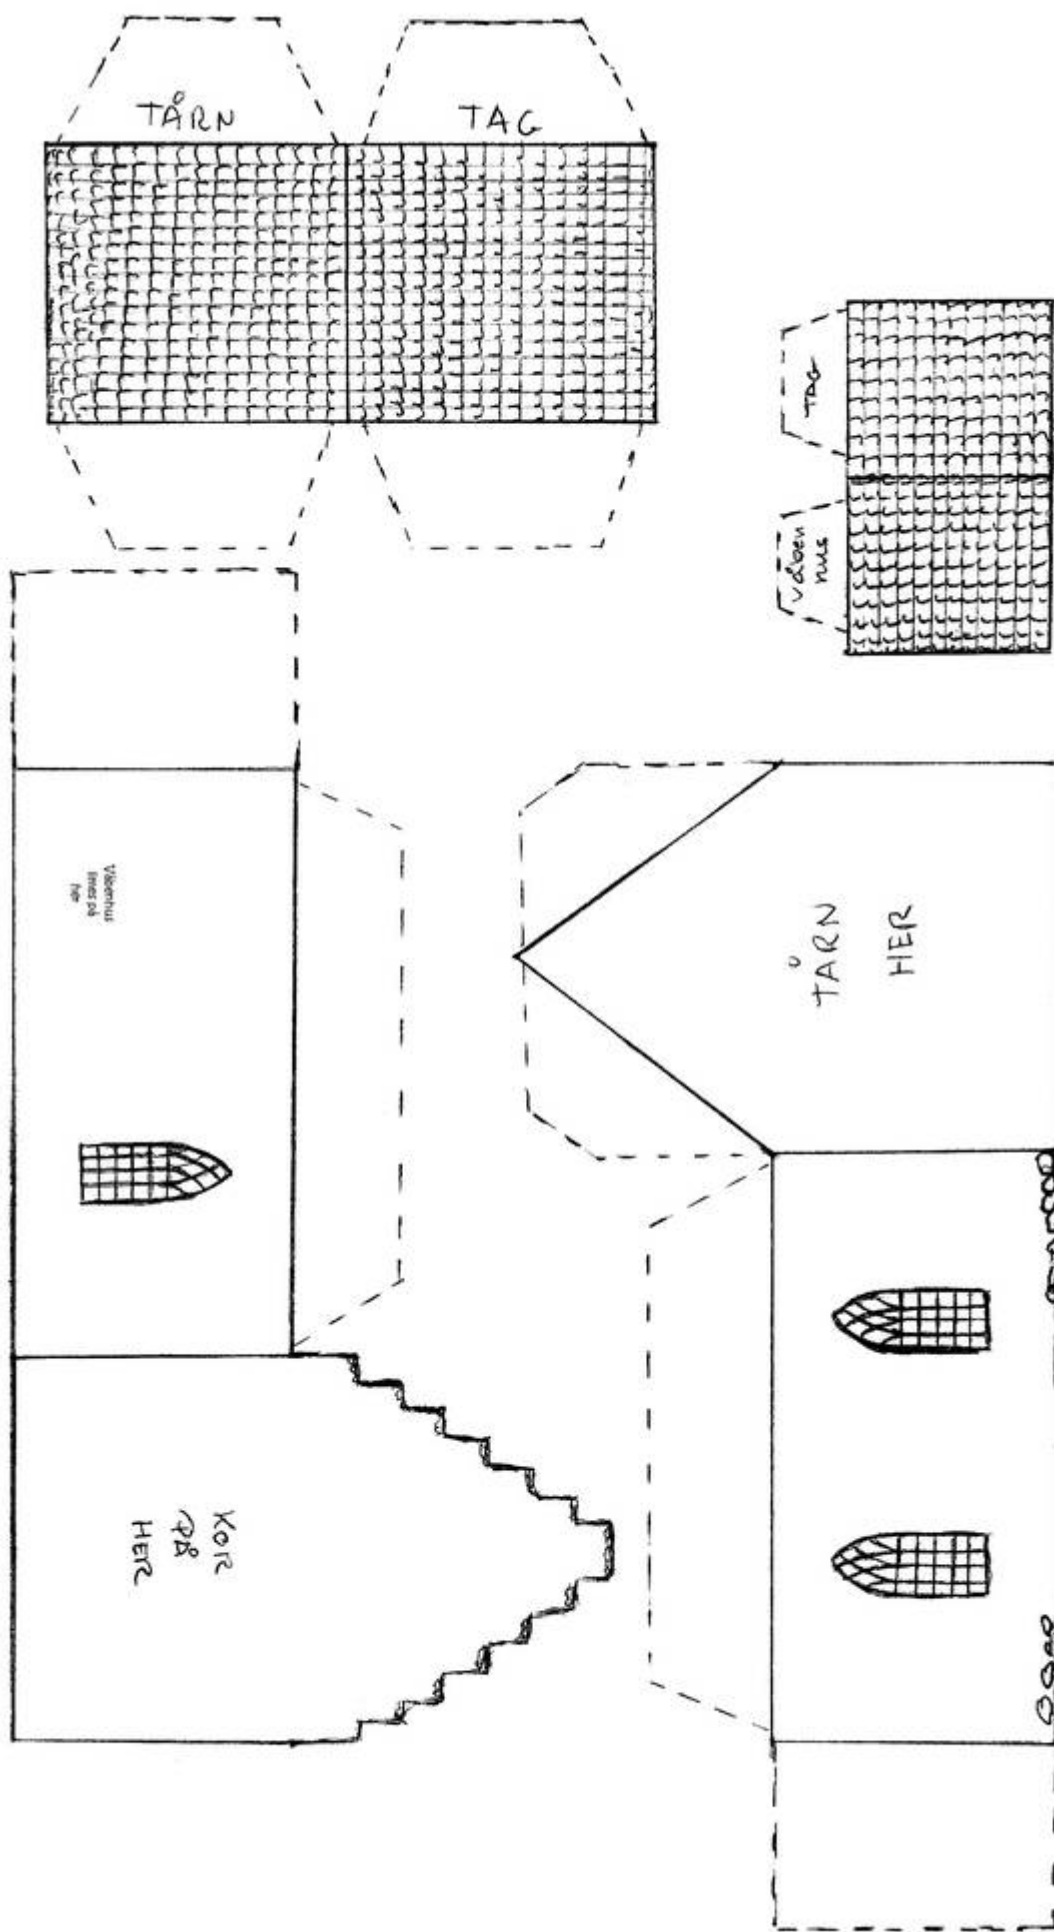

En dansk landsby kirke ca.
1150

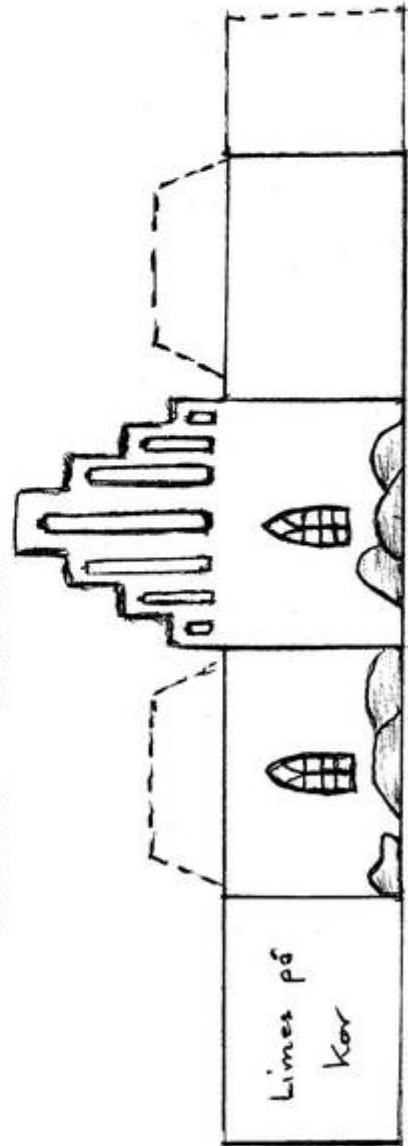

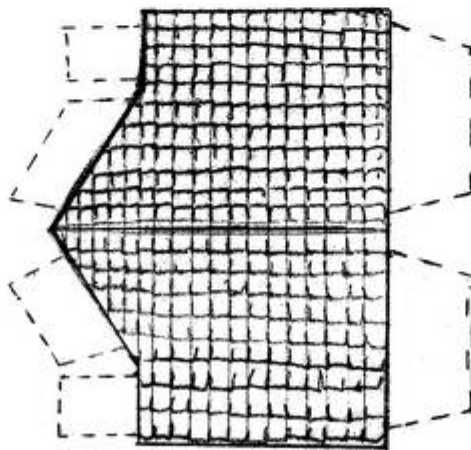

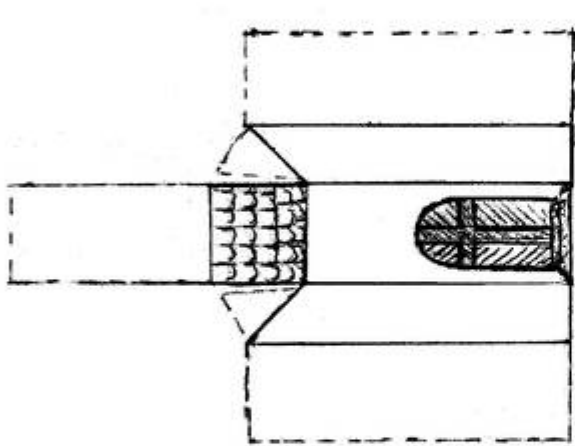

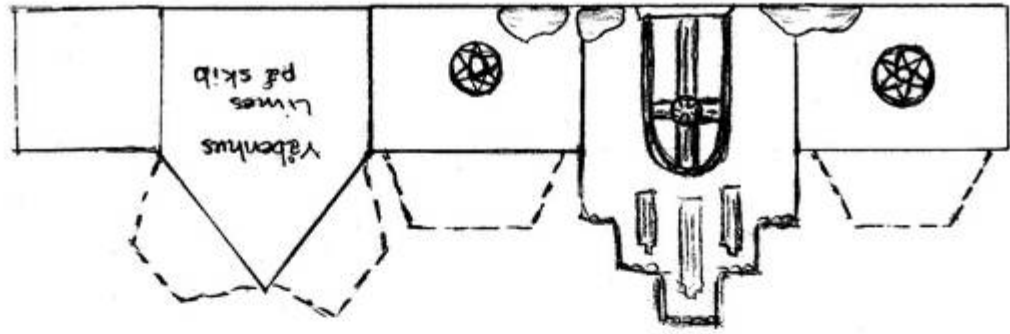

Kirken er hvidkalket med rødt tegltag, taget over apsis er af bly, dørene og glamlugerne i tårnet er malede mørk røde.

Tip: Saml kirkens enkelte rum et for et (skib, kor, tårn, våbenhus, trappehus og sakristi) før hele kirken samles efter kirkens grundplan.
